Compatible Printer List

Not all printer options are compatible for each InBody model. Before purchasing a new printer, check the INBODY PRINTER SETUP INSTRUCTIONS on page two, to confirm your device has the needed printer language setting to accommodate your desired printer. Please contact CS@inbodycanada.ca if you have questions or need further assistance.

InBody Models	Manufacturer	Printer Model	Type	Printer Language	Remark

Note: While the list above includes manufacturer-recommended printers compatible with InBody devices, **InBodyCanada strongly recommends the Brother HL-L2400D** as the preferred model. This printer has a proven track record of consistent performance across all InBody models we distribute and support in Canada. For optimal compatibility and reliability, we advise using the Brother 2400D.
